Why WebSoniX is Superior?

Overview	Asset Tokenization	Yield Against Royalties	Set per stream price
What	Convert future royalty rights into inward facing tokens.	Advance your expected royalties for immediate income.	Choose your own streaming price per song for “Exclusive Drops”.
Why	Get upfront value tokens without selling your entire catalog.	Reduce financial stress and stabilize monthly earnings.	Let super fans directly support you and increase earnings.
How	Stake hit tracks on-chain, earn rewards, cash out royalties + bonuses at maturity.	Lock a certain % of received royalty and receive a payout with annualized yield.	Release exclusive tracks with custom pricing on your profile.
Big Artists	✅ Best fit	♦ Optional	✅ Great for exclusives
Small-Mid Artists	♦ Selectively useful	✅ Strong fit	✅ Good experiment
Record Labels	✅ Ideal for catalogue	✅ Excellent for cash flow	♦ Limited use case
